Alberto Fachechi

alberto.fachechi@gmail.com http://albertofachechi.github.io

Activity and research interests

My research activity is placed in the wide discipline of statistical mechanics methods for complex systems analysis, in particular concerning **spin-glass theory** and its application to modern **Artificial Intelligence** and **Machine Learning**. The core research interest consists in the development of rigorous mathematical techniques, involving in particular Guerra's interpolating schemes, non-linear PDE theory, probability and statistics and random matrix theory. My research interests also cover the application of statistical inference tools to real-world (in particular, biological) problems.

Positions

2023 – Today
- **Researcher** (RTD-A).
  Department of Mathematics G. Castelnuovo, Sapienza University of Rome.
  SSD: MAT/07

2021 – 2023
- **Post-doc researcher.**
  Department of Mathematics G. Castelnuovo, Sapienza University of Rome.
  SSD: MAT/07

2020 – 2021
- **Post-doc researcher.**
  Department of Mathematics and Physics E. De Giorgi, Unisalento.
  SSD: MAT/07

2019 – 2020
- **Research fellow.**
  Department of Mathematics and Physics E. De Giorgi, Unisalento.
  SSD: MAT/07

Education

2016 – 2019
- **Ph.D. in Physics and Nanosciences.**
  Department of Mathematics and Physics E. De Giorgi, Unisalento.
  Thesis title: *Statistical mechanics for Artificial Intelligence: Learning, Retrieving, Unlearning and Sleeping.*

2013 – 2015
- **M.Sc. in Theoretical Physics of Fundamental Interactions.**
  Department of Mathematics and Physics E. De Giorgi, Unisalento.
  Thesis title: *Higher-spin Lifshitz theories and integrable systems.*

2009-2013
- **B.Sc. in Physics.**
  Department of Mathematics and Physics E. De Giorgi, Unisalento.
  Thesis title: *Integrability in AdS/CFT.*

Communities

2023-Today
- **FAIR foundation (Future Artificial Intelligence Research).**
  Partecipation as researcher in the group of Artificial Intelligence at Department of Mathematics, Sapienza University of Rome.

2018-Today
- **National Group for Mathematical Physics (GNFM-INdAM)**, section of mechanics for discrete systems.

2016-2017
- **GATIS (GAuge Theory as an Integrable System)**, section of Bologna, National Institute for Nuclear Physics (INFN).

2015-2021
- **National Institute for Nuclear Physics (INFN)**, section of Lecce.

Teaching

2023-2024
- Co-lecturer for the course of **Calculus and Biostatistics** for the academic year 2023-2024 (together with Prof. Elena Agliari), Department of Biology and Biotechnologies, Sapienza University of Rome.
- Teaching assistant for the course of **Elements of Probability and Statistics for Data Science** for the year 2023-2024 (resp. Prof. Alessandra Faggionato), Department of Mathematics, Sapienza University of Rome.
- Lecturer for the course of **Statistical learning and neural networks: a short introduction to Artificial Intelligence** for the academic year 2023-2024 in the context of the "Excellence Program", Department of Mathematics, Sapienza University of Rome.

2021-2022
- Co-lecturer for the course of **Mathematics** for the academic year 2021-2022 (resp. Prof. Raffaela Capitanelli), Department of Architecture, Sapienza University of Rome.

2020-2021
- Supervisor for the course of **Mathematics for Economy and Finance** for the academic years 2019-2020 and 2020-2021 (resp. Prof. Luca Anzilli), Department of Economy, Unisalento.

Supervising

2024
- Supervisor for the ACU course essay by Yuriy Dosyak with title *Bayesian approach to supervised learning: mathematical approaches to automatic learning*, Sapienza Università di Roma, Rome (IT).
- Co-supervisor (together with Prof. Elena Agliari) for the PhD thesis in Mathematics by Domenico Luongo with title *A Random Matrix Theory Perspective on Hebbian-Like Neural Networks*, Sapienza Università di Roma, Rome (IT).

2023
- Supervisor for the M.Sc. thesis in Mathematics by Benedetta Giovannelli with title *Statistical mechanics of spin-glasses for Artificial Intelligence and Machine*, Sapienza Università di Roma, Rome (IT).

2022-2023
- Co-supervisor (together with Prof. Elena Agliari) for the PhD thesis in Mathematics by Chiara Marullo with title *Rigorous techniques for Statistical Mechanics of Machine Retrieval*, Sapienza Università di Roma, Rome (IT).
- Co-supervisor (together with Prof. Elena Agliari) for the M.Sc. thesis in Mathematics by Donatella Genovese with title *Effective training strategies for Restricted Boltzmann Machines*, Sapienza Università di Roma, Rome (IT).
- Co-supervisor (together with Prof. Elena Agliari) for the M.Sc. thesis in Mathematics by Matteo Notarnicola with title *On the thermodynamic limit of bipartite spin glasses*, Sapienza Università di Roma, Rome (IT).

2018
- Co-supervisor (together with Prof. Elena Agliari) for the M.Sc. thesis in Applied Mathematics by Chiara Marullo with title *Neural network beyond the Hebbian paradigm*, Sapienza Università di Roma, Rome (IT).

Funded projects

2023
- PI for the project **Rigorous statistical mechanics for Artificial Intelligence and Machine Learning** in the context of Progetto Giovani 2023 funded by National Group of Mathematical Physics (GNFM).

2022
- PI for the project **Replica Symmetry Breaking in modern Artificial Intelligence** in the context of Progetto Avvio alla ricerca 2022 funded by Sapienza University of Rome.

Funded projects (continued)

- Partecipant to the project **Large scale multicomponent random systems** (ref. Prof. Vittoria Silvestri) funded by Sapienza University of Rome (Progetto di Ricerca Medio).

2018
- Partecipant to the project **Rigorous approaches to Deep Learning** (ref. Prof. Elena Agliari) in the context of Progetto Giovani 2018 funded by National Group of Mathematical Physics (GNFM).

Other roles

2024-Today
- **Responsible for communication** for the FAIR foundation, Spoke 5 (WP5.5) for the organization of scientific and dissemination events.

2024
- **Organizer** of the VI Scientific Meeting for the FAIR foundation.

2023-Today
- Member of the Department Assembly, Department of Mathematics, Sapienza University of Rome.

2022
- **Project reviewer** for the Isreal Science Foundation.

2018-Today
- **Review editor** for Frontiers in Physics, section of Social Physics.

2017-Today
- **Referee** for several high-impact journals, in particular *Nature Scientific Reports*; *Journal of Mathematical Physics*; *Journal of Physics A: Mathematical and Theoretical*; *Neural Computation*; *Journal of Physics: Complexity*; *Physica A: Statistical Mechanics and its Applications*; *Journal of Statistical Mechanics: Theory and Experiment*; *Machine Learning: Science and Technology*.

Recognitions

2023
- **Outstanding reviewer** for IOP publishing for my contributions to the *Journal of Physics: Complexity*.

2021
- **Special mention** for my PhD thesis from the selection board of Fubini Prize 2021 (INFN).

2020
- **Truster reviewer** for IOP Publishing.

Summary of scientific production

Total number of publications	27
Total number of citations[1]	393
Total h-index[1]	10
Total $i10$-index[1]	10

Selected talks to conferences and invited talks

2024
- *A Hopfield-like picture to address generalization and overfitting,* Mathematics for Artificial Intelligence and Machine Learning, University Bocconi of Milano.

2023
- *Dreaming Neural Networks: pushing retrieval/learning capabilities to the limit by "sleeping" mechanism*, Physics-informed machine learning workshop, Alan Turing Institute.
- *Machine Learning from a spin-glass theory perspective*, Stochastic Models for Complex Systems, Department of Mathematics E. De Giorgi, Unisalento.
- *Retrieving, unlearning and learning: there and back again*, Department of Physics, Sapienza University of Rome.

2022
- *Dreaming Neural Networks: pushing retrieval/learning capabilities to the limit by "sleeping" mechanism*, Matematica per l'Intelligenza Artificiale e il Machine Learning - Giovani ricercatori, Politecnico di Torino.
- *PDE/Statistical Mechanics relation: from p-spin ferromagnets to dense associative memories*, Department of Mathematics, Sapienza University of Rome.
- *Dreaming Neural Networks: pushing retrieval/learning capabilities to the limit by "sleeping" mechanism*, Unconventional Computation Workshop, Swansea University.

2021
- *Dreaming Neural Networks: dal richiamo automatico all'apprendimento*, Divulgazioni Notturne di Fisica Matematica, online talk for GNFM (Gruppo Nazionale della Fisica Matematica).

2018
- *Sleeping in Hopfield neural networks: some recent results*, Department of Mathematics, King's College London.

2017
- *Chiral trace relations in Ω-deformed $\mathcal{N} = 2$ theories*, XXVth International Conference on Integrable Systems and Quantum symmetries, Czech Technical University Prague.
- *Chiral trace relations in Ω-deformed $\mathcal{N} = 2$ theories*, Physics and Mathematics of Nonlinear Phenomena – "50 years of IST", Unisalento.
